

NOTICE

Due to the process of Resetting of Software (as requested by the candidates themselves) some technical problems have arisen in software due to which candidates are facing some difficulty in Choice Filling and saving of Choices. The same is being rectified on Urgent basis and is likely to be corrected soon. The Reset option will also be provided to all the candidates in their software very soon. Keeping in view the time that has elapsed, active considerations are also on to extend the Choice Filling timeline in schedule so that candidates get sufficient time to fill in their choices.
